

# ?Conectando! Comunicacion Oral Intermedia. (Internet Based & Assessment Ready) (Spanish Edition)

In this 180-page ebook, Spanish language students will find many up-to-date ideas for how to approach and prepare both conversational and presentational activities. These ideas are accompanied by extensive information on how to access and use authentic materials via the Internet. Practically all sites mentioned or included are available to use for free, and can be accessed using a smartphone in or out of the classroom setting. Activities in the book are organized to allow assessment based on ACTFL criteria. Most activities include their own rubric, so the student knows exactly what is expected of him/her, and the instructor has a specific guide to help with grading.
