

Teaching Reading: Strategies and Resources for Grades K-6 (Solving Problems in the Teaching of Literacy)

Elementary teachers of reading have one essential goal to prepare diverse children to be independent, strategic readers in real life. This innovative text helps preservice and inservice teachers achieve this goal by providing knowledge and research-based strategies for teaching phonemic awareness, phonics, fluency, vocabulary, all aspects of comprehension, and writing in response to literature. Special features include sample lessons and photographs of literacy-rich classrooms. Uniquely interactive, the text is complete with pencil-and-paper exercises and reproducibles that facilitate learning, making it ideal for course use. Readers are invited to respond to reflection questions, design lessons, and start constructing a professional teaching portfolio.
